- Mold & Mildew
- Sweat

**Natural
Powerful!**

Food-grade Safe

Safely spray in the air, on all carpets, fabrics, around people and pets.

Eliminate odors absorbed in fabric, wood, any surface; also odors in the air

PureAyre®

Pure. Powerful. Guaranteed.

Now biotechnology has made it possible to bottle naturally occurring plant enzymes that eliminate odors and clean the air. Because it is all natural and plant-based, PureAyre® is the only food-grade odor eliminator available, making it the safest and surest way to get rid of disgusting smells while boating, camping, RV-ing, fishing, and just playing. PureAyre lets you control the smells in your environment while being friendly to the environment.

PureAyre is a naturally powerful way to get rid of stinky odors from: fish, mold and mildew, body sweat, cigarette and cigar smoke, campfire smoke, cooking, skunk, pet and animal urine, garbage, sewer, gasoline and diesel fuels, automobile and boat engine exhaust, bathroom and outhouse, vomit, flatulence, and fecal matter.

VERSATILE

PureAyre is much more versatile than other odor eliminators that can only work on fabric, only in the air, or only in water. Spray PureAyre right from the bottle to clean the air of any odors. Pour PureAyre into your laundry to soak and/or wash wet suits, tent fabrics, sports equipment, pet bedding, and clothing to eliminate stubborn odors. Use some in your carpet machines along with carpet cleaning detergent to clean and eliminate odors in carpets and furniture without the masking fragrances used by most carpet cleaners. Inject PureAyre into foam and deeply padded carpets to reach soaked in odors like urine, beer, and food. Spray PureAyre directly onto pets or add to pet bath to get rid of stinky musty dog or cat odors – even skunk.

SAFETY

Before now, your choices for dealing with stinky odors were obnoxious fragrances and fresheners, masking agents, or toxic chemical producing equipment like ozonators. All of these items only add to the synthetic chemical pollution in our homes and our planet. PureAyre is natural and works by eliminating odor causing compounds not by adding new hazardous compounds to your air. PureAyre is safe enough to use around and on people, pets, children, and even exotic animals like birds and snakes.

PureAyre is the only food-grade odor eliminator available, making it the safest and surest way to get rid of yucky smells around food. It is the only odor eliminator you should use in the kitchen or galley where you might contact food. That is because PureAyre is made from food and food grade ingredients.

IDEAS FOR USE

- Take PureAyre with you while traveling to eliminate smoke and musty room odors in motels.
- Put one in your sports bag or locker to eliminate odors from work out clothes.
- Take a bottle camping to eliminate fish and cooking odors, campfire smoke, and for those yucky outhouses.
- Put one in your boat head or RV bathroom and spray after each use to keep your cabin smelling clean.
- Pour a cup into your bilge before a trip to keep odors at bay.
- Use in your boat and RV to refresh the seats, drapery, and carpet fabrics from fuel exhaust and usage odors.
- Keep one around to clean up the vomit and beer from your latest party.
- Use on your musty dog after going for a run in the beautiful Seattle style drizzle.
- Spray into your cat box to keep odors down.
- Spray onto your garbage bags while camping to help keep the critters away.
- Spray into your engine compartment to eliminate gasoline or diesel fumes.
- Soak your fishy clothing in light detergent and PureAyre to get rid of fish odor.
- Soak your musty tents in a bath of light detergent and PureAyre to eliminate mold and mildew odors.
- Spray those boating and sports shoes after each use to keep them smelling fresh.
- Keep on handy in the galley to eliminate cooking odors.
- Spray those cigar odors away during and after the all night poker game. Your spouse will never know!
